

The Andover Companies Wellness Center /

Andover, Massachusetts

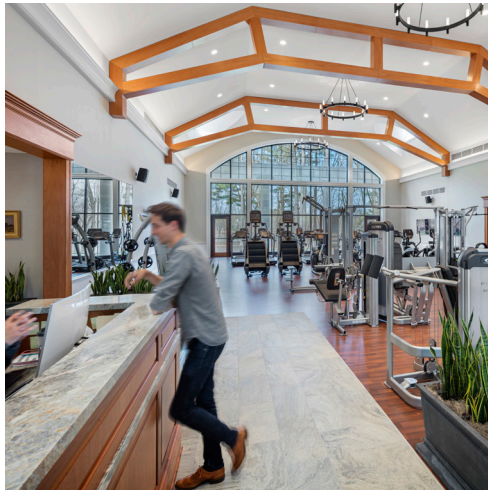

Owner:
The Andover Companies

Architect:
Prellwitz Chilinski Associates

Area:
13,330sf

Duration:
13 Months

Type:
Design/Build
Addition

Erland returned to the corporate headquarters building we constructed for insurance giant, The Andover Companies, to enhance the quality of work life for employees with a new Wellness Center. Prellwitz Chilinski Associates was our design partner for this design/build project.

The Wellness Center is an addition to the main building via a connector. Granite, brick, and limestone were used to match the existing headquarters building. It features a fitness center, spin studio, flexible collaborative space, and fully-appointed locker/shower rooms. The project included an outdoor basketball court for employees to enjoy in good weather.

The site of the Wellness Center is in a Protected Species Zone -- habitat for bald eagles and dragonflies. Erland's construction management plans were vetted by the National Wildlife Service.

The new facility looks out over the Merrimack River.
