

EMD Serono Sagamore Corridor / Billerica, Massachusetts

Owner:
EMD Serono

Interior Architect:
INTEC Group, Inc.

Duration:
7 Months

Type:
Renovation

EMD Serono partnered with Erland to renovate existing office space within the Sagamore building to create a new hallway/corridor to the Bourne building. This new hallway is classified as a lab corridor and was created to meet code for lab technicians to travel from the Bourne building into the Sagamore building lab spaces. Glass doors were installed at either end to separate the corridor from the rest of the building.
