

# Academic and Health Center at Hillside School /

Marlborough, Massachusetts

**Owner:**

Hillside School

**Architect:**

Baer Architecture

**Area:**

17,560sf

**Duration:**

10 Months

**Type:**

Renovation / Addition

This project consisted of renovations and a 17,560sf addition to the Hillside School's academic center – Stevens Hall. Teaming with Baer Architecture Group of Northborough, Erland completed this fast-track project in 10 months.

The addition includes a 1,200sf health center, nine classrooms – three of which are science labs – and a wrestling/multi-purpose room. The addition is a one-story structure with a brick and glass curtain wall facade.

Renovations of the existing building include installing new sprinkler and fire alarm systems.
