

## Covidien Corporate Headquarters, Phase 2 / Mansfield, Massachusetts

**Owner:**  
Covidien Ltd

**Architect:**  
ahp Architects

**Area:**  
177,200sf

**Duration:**  
10 Months

**Type:**  
Renovation

This project involved a series of renovations to Building 1, Wing 1 and Building 5 on Covidien's corporate campus in Mansfield.

In Building 1, Wing 1, Erland gutted the 62,200sf, 2-story existing space and constructed new offices, a food services area, and two lobbies. The building also had a new HVAC system added.

Building 5 is a 1-story, 115,000sf structure that houses 33,000sf of R&D labs including vascular, ultrasound, and sharp safety labs. There is office space, a fitness center, and warehouse space. Building 5 earned LEED Silver for Construction Interiors certification.

Site work included adding 80 parking spaces and a large retaining wall.

For the work in Building 5, Erland entered into a productive partnership with OSHA. This required collaboration and special record-keeping.

Covidien has since been acquired by Medtronic.
