Contractors: Excellence in  
Construction

New England AIA Award 2001:  
Honor Award

Within the Babson Quadrangle, the Reynolds Campus Center serves as the hub of student activities. The openness of the public areas showcases the unique landscape of the campus center, which is situated at the nexus of four primary campus paths.

Extensive logistical planning allowed student life to continue normally during Erland's construction of this building and the other two that form the Quadrangle.
