

Interior Renovations at The Park School / Brookline, Massachusetts

Owner:
Park School

Architect:
Utile, Inc.

Area:
9,693sf

Duration:
3 Months

Type:
Renovation

The Park School has selected Erland, in collaboration with Utile, Inc., to renovate key areas of the Main and West Buildings, reconfiguring 10,000 square feet of existing space to enhance the school's learning environment—specifically its music, technology, athletic, and student services programs.

Erland will transform underutilized areas to enhance connectivity between academic programs and support services, integrate new technology—including a podcast studio and robotics lab—to enrich learning, improve acoustics for music education, and create modern, private spaces for student-athletes. The renovation will also include upgrades to the MEP systems to improve efficiency and performance, along with new flooring, millwork, windows, and fresh paint to create a vibrant and engaging educational setting, in addition to a refresh of an existing restroom and the West Building lobby area.

This is Erland's first collaboration with the Park School.
